

## ***Know how to use the Web Search***

Students can now search our collections anytime-anywhere! Just log on to <http://www.rstc.edu/library.html> and click on *Web Search*. There are a variety of methods for searching and books/materials can be reserved.

## ***Know what databases are available***

Alabama Virtual Library  
Salem Health  
EBSCOhost

## ***Alabama Virtual Library***

The Alabama Virtual Library provides all students, teachers, and citizens of the State of Alabama with online access to essential library and information resources. It is primarily a group of online databases that have magazine, journal, and newspaper articles for research. Through the AVL, an equitable core of information sources are available to every student and citizen in Alabama, raising the level of excellence in schools and communities across the state.

\*\*Beginning August 2010~home users will not have to have a card! The Alabama Virtual Library uses geo-location technology to authenticate Alabama residents, and this technology will grant allows most Alabama residents to access AVL from their homes without the need for a username and password.

If the geo-location technology is unable to "recognize" a user as an Alabama resident, then residents may login with an AVL Card. AVL Cards may also be used to gain access when a resident is traveling outside the state. Visit your local public library/or college library to request an AVL (remote access) card. K-12 students/staff in public schools may obtain a card from their school library.

## ***Salem Health***

Salem Health brings online access to Salem Press' award-winning health reference works. The first reference set included is Salem Press' best-selling *Magill's Medical Guide*. In its printed form, the current edition of the *Guide* ix six volumes and 3,500 pages. Even better, the purchase of the printed set entitles a school or library to free online access to the *Medical Guide's* content.

*Magill's Medical Guide*, in its various editions, has been glowingly reviewed by every major reference reviewer. It is a staple in high school, college, public and medical school libraries. The *Guide* is a perfect mix of accessibility and depth, providing general readers with an authoritative reference source that helps bridge the gap between medical encyclopedias for professionals and popular self-help guides. It is an up-to-date and easy-to-use compendium of medical information suitable for student research as well as use by general readers, including patients and caregivers.

## EBSCOhost

EBSCO Information Services provides a complete and optimized research solution comprised of research databases, e-books and e-journals—all combined with the most powerful discovery service and management resources to support the information and collection development needs of libraries and other institutions and to maximize the search experience for researchers and other end users.

EBSCO offers more than 375 full-text and secondary research databases and over 420,000 e-books plus subscription management services for 355,000 e-journals and e-journal packages. EBSCO also provides point-of-care decision support tools for healthcare professionals and organizational learning resources for training and development professionals.

EBSCO serves the content needs of all researchers whether they access EBSCO resources via academic institutions, schools, public libraries, hospitals and medical institutions, corporations, associations, government institutions, etc.
